

rlberry: A Reinforcement Learning Library for Research and Education

Zenodo software record (2024)

Authors: Omar Darwiche Domingues; Yannis Flet-Berliac; Edouard Leurent; Pierre Ménard; Xuedong Shang; Michal Valko

This local PDF snapshot exists because the canonical record is a software release hosted on Zenodo/GitHub rather than a conventional paper PDF. It summarizes the source-of-truth metadata used on the website and provides a stable PDF target for downstream profile automation.
